

Small Wooden Children's Chair

This is a small wooden chair designed for children. It features four legs connected by horizontal supports for stability and a solid or woven seat.

Product Overview

Aged Wooden Seating

These small, dark-stained wooden chairs are designed specifically for children, offering a rustic and charming aesthetic. Featuring a sturdy construction with horizontal leg supports, they are built for stability and durability. The set includes two distinct styles, with one chair featuring a solid seat and the other a woven or slatted design, perfect for decorative or functional use.
