Overview

Comprehensive Health Monitoring

This Smart Body Composition Scale offers professional-grade health tracking with integrated WiFi connectivity for seamless data management. Designed with high-precision sensors and a durable tempered glass platform, it provides accurate measurements for weight and essential body metrics. The scale integrates with the Tuya Smart Life ecosystem to help users monitor trends and personalize their fitness journey.

Key Performance Metrics

Key Performance Metrics

180 kg

Max Capacity

5 kg

Min Capacity

0.1 kg

Division Value

Technical Specifications

Comprehensive body composition analysis with WiFi connectivity and high-precision sensors.

Product Dimensions

Dimension	Value
Width	280 mm
Length	280 mm
Thickness	22 mm
Glass Thickness	5 mm

Model Number	BF1807-WF
--------------	-----------

Connectivity & Intelligence

Smart Features

- Tuya WiFi Chip Integration
- Smartphone App Control (Smart Life)
- Bodyweight Trend Tracking
- Personalized Diet & Exercise Plans
- Health Menu Recommendations

Design & Safety

Build Quality	High-Strength Tempered Glass, Brushed Metal Sensors, Rounded Corners, LCD Display, High-Sensitivity Sensors
---------------	---

Power & Operation

Switchable Units

KG • LB • ST:LB

Power Supply	3x AAA Batteries
