

Smart Connectivity

Comprehensive body composition analysis with seamless Smart Life App integration and high-precision sensors.

Smart Features

- WiFi connection with TUYA solution chips
- Smart Life App integration
- Automatic data transfer to app
- Multi-user and family sharing support
- Remote health monitoring
- No need to open app during every measurement

Measurement Capabilities

Tracked Parameters

Weight, BMI, Body Fat, Water Content, Muscle Mass, Visceral Fat, Protein, Bone Mass, Physical Age, BMR, Defatted Body Weight

Physical Design

Physical Specifications

Feature	Specification
Platform Material	6mm ITO Tempered Glass
Platform Size	300 x 300 x 21 mm
Display Type	LCD with Blue Backlight
Net Weight	1.6 kg
Safety Design	Rounded Corners

Operation & Power

Automatic Functions

Step-on Activation • Auto-off • Overload Indication • Low Battery Indication

Power Source 3 x AAA Batteries (included)

Supported Units KG, LB, ST:LB
