

Smart Breakfast Appliance Set with WiFi Control

This smart breakfast set offers a modern, connected start to the day. It includes a WiFi-enabled coffee maker, electric kettle, and two-slot toaster for a coordinated and technologically advanced kitchen setup.

Overview

Smart Breakfast Set

This modern breakfast appliance set brings intelligent control to your kitchen routine. Featuring integrated WiFi connectivity via the Tuya platform, users can manage their morning coffee, tea, and toast directly from their smartphone. The set includes a high-capacity coffee maker, a rapid-boil electric kettle, and a dual-slot toaster, all finished in a sleek, coordinated design.
