Overview

Smart Induction Cooking Technology

Experience the next generation of kitchen efficiency with this smart induction cooktop. Designed for modern living, it combines traditional LED interfaces with advanced Wi-Fi connectivity, allowing for remote control and custom recipe programming via a dedicated app. With multi-zone heating capabilities, it serves as an all-in-one culinary solution, replacing standalone rice cookers, soup makers, and grills.

Smart Features

Customizable Recipes

- Food Warming
- Milk Heating
- Boiling
- Stir-frying
- Grilling
- Frying

Connectivity

Wi-Fi Enabled, App Control, Remote Operation

Safety & Protection

Integrated Safety Systems

Child Lock • Residual Heat Indicator • Overheat Protection • Dry Burn Protection • Overflow Warning
