Product Overview

Automatic touch-free operation with rapid 0.25s start time.

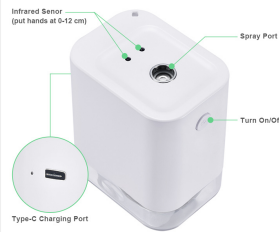

Portable design suitable for a variety of environments including homes and professional offices.

Smart Induction Sanitizer Sprayer

This portable, automatic sanitizing mist sprayer utilizes advanced infrared sensor technology for touchless operation, providing a hygienic solution for homes, offices, and schools. Featuring a high-capacity 1800mAh battery, the device offers long-lasting performance for personal sanitization. Its nano-composite micro-porous spray system ensures an efficient and fine mist, perfect for applying 75% alcohol or other water-like sanitizing liquids.
