Overview

Advanced Smart Massage Experience

This smart leisure massage chair offers a comprehensive, full-body relaxation experience designed to mimic human hand techniques. Combining advanced robotic mechanisms with a full-body airbag system, it targets key areas including the neck, back, waist, and legs to relieve muscle tension. With features like zero gravity positioning, soothing heat therapy, and customizable auto programs, it provides a professional-grade massage tailored to individual comfort needs.

Massage Capabilities

Advanced robotic hand mechanism with wrap-around air pressure massage for comprehensive muscle relief.

Available Techniques	Shiatsu, Tapping, Sync, Knocking, Kneading, Pushing, Grabbing, Squeezing, Pressing
Auto Programs	12 programs

Comfort & Technology

Integrated heat therapy and zero gravity positioning enhance circulation and provide deep stretching.
