Product Overview

Smart Cleaning Technology

This advanced robot vacuum features an integrated HD camera and intelligent GYRO mapping for precise home navigation. With its high-performance brushless motor and 2500 Pa suction, it effectively handles dirt across varied surfaces while maintaining low-noise operation. The versatile system supports seamless vacuuming and mopping, all managed via the intuitive TUYA smart app.

Performance

High-performance brushless motor delivers 2500 Pa of suction power.

Low-noise operation ensures minimal disruption to your home environment.

Key Performance Metrics

2500 Pa
Suction Power

2600 mAh
Battery Capacity

160 min
Max Runtime

160 m²
Max Cleaning Area

Cleaning Capabilities

Sweep, Vacuum, Mop, Auto Cleaning

Smart Features

Integrated HD camera for home surveillance and real-time remote monitoring.

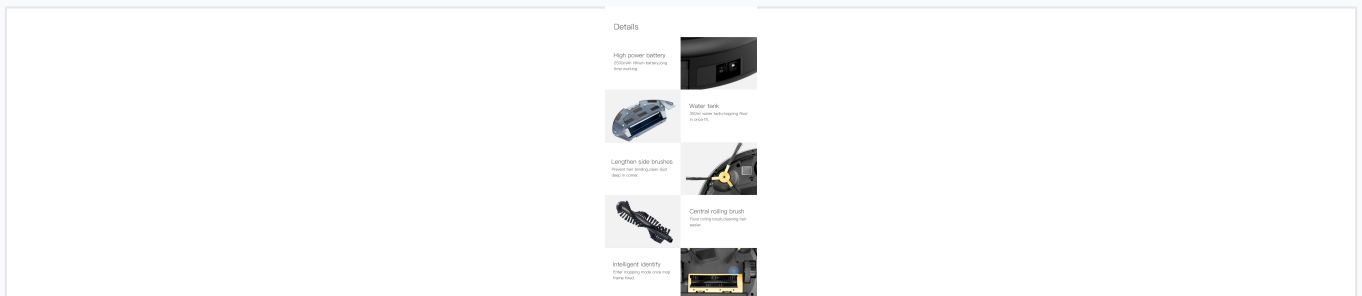

Navigation & Intelligence

- ESLAM Mapping
- GYRO Navigation
- Position Memory
- Motion Detection

Connectivity & Control

TUYA Smart App • Voice Control (Alexa/Google) • WIFI Remote Control • Audio Notifications

Safety & Hardware

Efficient cleaning components featuring a 350ml water tank and tangle-resistant brushes.

Hardware Specifications

Component	Details
Motor Type	Japanese BLDC
Water Tank	Electric Control
Safety Sensors	Anti-falling, Anti-collision
