

Smart Video Doorbell with Two-Way Audio

This smart video doorbell enhances security and convenience. It features a high-resolution camera with a wide viewing angle and sends instant alerts to smartphones upon detecting activity.

Overview

Smart Security at Your Doorstep

This wireless smart video doorbell offers a comprehensive security solution for residential and commercial entryways. Featuring high-definition 1080P video and advanced H.265 compression, it delivers clear, efficient monitoring. With integrated PIR motion detection, two-way audio, and night vision capabilities, users can monitor and interact with visitors remotely with ease.

Technical Specifications

Resolution	2MP 1080P
Video Compression	H.265
