Product Overview

Intelligent Visual Ear Care Solution

This smart visual ear cleaner combines a 300W high-precision HD endoscope with a 4-axis gyroscope to provide safe, 360-degree real-time ear inspection and cleaning. Designed with safety in mind, it features food-grade PC and silicone materials and an ultra-fine 3.5mm diameter tip suitable for both adults and children. The device integrates intelligent temperature control and wireless connectivity for a seamless, professional-grade ear hygiene experience.
