

# SMT 16mm Tape Feeder for Siemens X Series

This 16mm tape feeder is designed for Siemens X Series SMT placement machines. It facilitates the accurate and consistent delivery of components for automated electronic assembly.

## ADDITIONAL IMAGES

## Product Overview

Precision-engineered 16mm tape feeder unit for modular placement systems.

### High-Precision SMT Feeder

This 16mm tape feeder is designed for high-speed SMT placement systems within the X Series. Engineered for precise component delivery, it enhances throughput and reliability in automated electronic assembly processes. The unit is optimized for seamless integration, ensuring accurate feeding to minimize production downtime.

## Technical Details

Model Number	00141272-06
Tape Width	16 mm

## Compatibility

Compatible Series	X Series, Modular Placement Machine
