

SMT Component Feeder CL44MM

This SMT component feeder is designed for accurate and reliable component feeding in high-speed assembly lines. It is compatible with SMT placement equipment, ensuring precise component placement on printed circuit boards.

Product Overview

Precision Component Feeding

This SMT component feeder is engineered for high-precision and reliable component delivery in surface mount technology assembly lines. Designed to ensure accurate placement of components onto printed circuit boards, it supports efficient and consistent manufacturing operations. The unit is built for durability and performance, meeting the rigorous demands of modern high-speed electronic assembly environments.

Quality Standards

Original New Condition, Quality Assured

Technical Specifications

Model Identifier	CL44MM
Part Number	KW1-M6500-041

Compatibility Reference

Compatible Series

- FT Series
- FV Series
- FS Series
- SS Series
- CL Series

Supported Feeder Sizes

Feeder Type	Part Number
CL8X2 (0402)	KW1-M1300-00X
CL8X4	KW1-M1100-000
CL8X3 (0201)	KW1-M1500-030
CL12mm	KW1-M2200-300
CL16mm	KW1-M3200-10X
CL24mm	KW1-M4500-015
CL32mm	KW1-M5500-010
CL44mm	KW1-M6500-000
CL56mm	KW1-M7500-000
CL72mm	KW1-M8500-000
CL88mm	KW1-M9500-000
