Product Overview

Precision Component Feeder

This high-precision component feeder is engineered for seamless integration into automated surface mount technology assembly lines. Designed for reliability and accuracy, it ensures consistent pick-and-place performance for high-speed production environments. Available in original new, original used, and high-quality copy variants to suit different operational budgets and maintenance requirements.

Compatibility & Specifications

Supported Feeder Series

- FT Series
- FV Series
- FS2 Series
- SS Series
- CL Series

Supported Tape Widths

- 8mm
- 12mm
- 16mm
- 24mm
- 32mm
- 44mm
- 56mm
- 72mm
- 88mm

Available Conditions

Original New, Original Used, Copy New
