

SMT Nozzle Assembly 505

This is a nozzle assembly designed for use in SMT pick and place machines. It ensures accurate and reliable component placement during PCB assembly.

Product Overview

Precision SMT Nozzle Assembly

This high-quality nozzle assembly is engineered for precision in automated component placement during PCB assembly. Designed for reliability and consistent performance, it features a spring-loaded mechanism that ensures controlled pick-and-place operations, minimizing component damage. This component is essential for maintaining high-speed, high-precision electronic manufacturing standards.

Compatibility & Part Numbers

Supported Nozzle Assemblies

Part Number	Assembly Name
40001343	Nozzle Assembly 505
40010998	Nozzle Assembly 505 CVS
40011046	Nozzle Assembly 500
40001341	Nozzle Assembly 503
40001342	Nozzle Assembly 504

Technical Specifications

Key Features

- Spring-loaded mechanism
- High-grade durable construction
- Optimized for automated pick-and-place
- Designed for high-speed placement accuracy
