

SMT Pick and Place Nozzle CN140

This pick and place nozzle is designed for SMT assembly processes. It ensures reliable component handling and placement during SMT line operation.

Product Overview

High-Precision SMT Pick and Place Nozzle

This high-precision nozzle is engineered for reliable component handling and placement within automated SMT assembly lines. Available in both original and compatible versions, it is designed to ensure consistent performance and durability during continuous production cycles. It serves as an essential maintenance component for maintaining efficient machine operation and accurate placement results.

Technical Specifications

Compatibility Details

Part Reference	Outer Diameter	Inner Diameter
CN140	2.2	1.4
CN030	0.8	0.28
CN040	0.75	0.38
CN065	1.2	0.65

Nozzle Series	CN140
