

# SMT Pick and Place Nozzle for Fuji QP Series

This SMT pick and place nozzle is designed for use with Fuji QP, QP132, QP242, and QP341 machines. It is constructed from durable materials to ensure reliable component placement.

## ADDITIONAL IMAGES

## Product Overview

### Precision SMT Placement Nozzles

These high-precision pick and place nozzles are engineered for optimal compatibility with QP, QP132, QP242, and QP341 series surface mount technology equipment. Constructed from durable, high-quality materials, these components ensure reliable handling and accurate placement in high-speed assembly environments. Each nozzle is designed to minimize component damage, optimize pick-up rates, and reduce operational downtime for your production line.

## Compatibility & Features

### Key Features

- High-precision alignment
- Durable material construction
- Optimized for high-speed pick and place
- Available with optional rubber cups

### Compatible Series

QP, QP132, QP242, QP341

## Nozzle Specifications

### Available Nozzle Configurations

Part Number	Description
ABHPN-8510	QP-S-12 Ø 0.7
ABHPN-8520	QP-S-12 Ø 1.0
ABHPN-8530	QP-S-12 Ø 1.3 / 1.0
ABHDN-8560	QP-M-38 Ø 2.5 / 1.9
ABHDN-8570	QP-M-38 Ø 3.7 / 1.7
ADBPN-8123	QP-3 1.8l
ADBPN-8223	QP-3 15G
ADBPN-8341	QP-3 23G
