

SMT Pick and Place Nozzle TN140

This SMT pick and place nozzle is designed for use with SAMSUNG machines. The TN140 model ensures accurate component placement during the surface mount technology assembly process.

Product Overview

Precision SMT Pick and Place Nozzle

This high-precision nozzle is engineered for reliable component handling in automated surface mount technology assembly processes. Designed for high-speed operation, it ensures dimensional stability and optimal vacuum suction to minimize component damage. Available in original and copy versions, it is a critical component for maintaining efficiency and accuracy in automated manufacturing lines.

Nozzle Series

TN Series, CN Series, CP 20/40 Compatible, CP 45 Compatible, CP 60 Compatible

Technical Specifications

Nozzle Dimensions

Part Model	Outer Diameter (mm)	Inner Diameter (mm)
TN140	2.2	1.4
TN220	3.6	2.2
TN400	6.2	4
TN030	0.8	0.3
TN045	0.75	0.38
TN070	1.2	0.65
