

SMT Pick and Place Nozzle TN220 for CP60

This SMT pick and place nozzle is designed for use with CP60 machines. It ensures accurate component placement for surface mount technology (SMT) assembly.

Product Overview

High-Precision SMT Placement Nozzle

This SMT pick-and-place nozzle is engineered for reliable component handling in automated assembly lines. Designed for compatibility with high-speed placement equipment, it ensures consistent accuracy and durability during the pick-and-place process. Available in both original and copy types, this component is an essential part for maintaining throughput and placement quality on printed circuit boards.

Technical Specifications

Nozzle Series	TN220
Material of nozzle tip	Tungsten steel
Available Types	Original, Copy

Compatibility

Compatible Machine Series

- CP30
- CP33
- CP40
- CP45 FV
- CP60

Compatibility Reference

Machine Model	Compatible Nozzles
CP30	M1, M2, M3
CP33	XG05, XH08, XI14, AA24, BA40
CP40	N045, N08, N14, N24, N40, N75
CP45 FV	TN030, TN110, TN040, TN065, TN140, TN220, TN400, TN750, TN1100
