Product Overview

Precision SMT Placement Nozzle

This high-precision pick and place nozzle is engineered for consistent performance in automated electronic manufacturing. Designed to facilitate accurate component placement during PCB assembly, it is constructed from durable materials to withstand high-volume production cycles. Both original and compatible copy versions are available to suit various operational requirements.

Compatibility & Identification

Manufacturer Reference	J7055267A
Compatible Series	Samsung CP45, Samsung TN65

Specifications

Tip Dimensions

1.2 mm Outer Diameter	0.65 mm Inner Diameter
