

SMT Placement Nozzle 71F

This SMT placement nozzle is designed for use in pick-and-place machines. It ensures accurate and reliable placement of electronic components on printed circuit boards.

Product Overview

Precision SMT Placement Nozzle

This SMT placement nozzle is engineered for high-precision component assembly, ensuring optimal performance and reliability in industrial pick-and-place processes. Designed for durability and consistent operation, it is an essential component for maintaining efficient assembly line throughput. The part is available in original new, used, and copy new conditions to suit various budget and maintenance requirements.

Available Conditions

Original New, Used, Copy New

Part Specifications

Primary Part Number

KV8-M71N1-A1X

Nozzle Type

71F

Compatibility & Series

Compatible Series Table

Part Number	Description
KV8-M7710-A1X	NOZZLE 71A ASSY
KV8-M7720-A1X	NOZZLE 72A ASSY
KV8-M7730-00X	NOZZLE 73A
KV8-M7740-A0X	NOZZLE 74A
KV8-M7760-00X	NOZZLE 76A
KV8-M71N2-A0X	NOZZLE 72F ASSY
KV8-M71N3-A0X	NOZZLE 73F ASSY
