

SMT Spare Part Shaft

This is a spare part shaft designed for SMT (Surface Mount Technology) equipment. It is used in electronic assembly machinery.

Product Overview

High-Precision SMT Spare Part

This original new spare part is designed for precision assembly equipment. It serves as a critical shaft component in surface mount technology operations, ensuring optimal mechanical performance. Built to high standards, this replacement part maintains the integrity and reliability of automated production lines.

Compatibility

Compatible Equipment	YG12, YS12, YS24
