Product Overview

High-efficiency octagonal drum design for uniform flavor coating.

Versatile Snack Flavoring Solution

This professional-grade seasoning machine is designed to uniformly coat snack foods with flavoring in short processing cycles. Utilizing an octagonal drum design, it ensures consistent mixing and even distribution of coatings while minimizing product damage. The system features automated tilting for efficient discharge, making it an ideal choice for high-volume food processing environments.

Operational Specifications

Mixing Cycle Time

5 min

Minimum Time

6 min

Maximum Time

Discharge System

Automatic tilting via motor rotation

Application & Compatibility

Target Industries

- Food processing
- Medicine manufacturing
- Chemical industry

Suitable Food Items

Fried snacks, Peanuts, Soybeans, Walnuts, Potato chips

Maintenance & Support

Service Model

Lifelong maintenance • Technical support

Standard Warranty

1 year
