

# Soft Serve Ice Cream Machine with Dual Compressors

This soft serve ice cream machine features a double compressor for efficient cooling. It offers four individual flavors and two mixed flavor options for versatile menu offerings.

## Product Overview

### Professional Soft Serve Solution

This high-capacity soft serve ice cream machine is engineered for reliability and consistent performance in commercial environments like cafes and restaurants. Featuring a dual compressor system, it ensures efficient cooling and optimal texture for every serving. With a flexible 2+1 flavor configuration, it allows operators to serve two individual flavors plus a mixed option, maximizing menu variety and customer satisfaction.

## Performance Metrics

### Key Performance Metrics

**23 L/H**
