

# Soil Compaction Rammer

The Tamping Rammer is a compaction tool designed for compacting soil, gravel, and asphalt. It is ideal for trenches, foundations, and confined areas, delivering efficient compaction with user-friendly operation and low maintenance.

## Overview

### Professional Soil Compaction Rammer

This soil compaction rammer is a professional-grade tool designed for high-efficiency compaction in construction and landscaping tasks. It is optimized for confined spaces, trenches, and foundation work, providing consistent force to stabilize soil, gravel, and asphalt. With a versatile engine selection and a durable footprint, it ensures reliable performance and longevity in demanding job site environments.

## Performance Metrics

### Impact Force

**16 kN**

Impact Force

**660 bpm**

Average Impact Number

### Jumping Stroke

8 cm

## Technical Specifications

### Engine Options

Engine Type	Power (kW/hp)	Weight (kg)
Robin EH12-2D	3.0(4.0)	82
Honda GX120	3.0(4.0)	82
Loncin LC165-1H	3.0(4.0)	82
Chinese Diesel 170F	3.2(4.2)	90

### Foot and Tank Size

- Foot Dimensions: 33 x 29 cm
- Fuel Tank Capacity: 2.8 L

### Model Number

CNCJ-82FW

### Packaging Dimensions

57 x 51 x 110 cm
