

# Soil Compaction Tamper Head

This tamper head is designed for compacting soil, gravel, and asphalt. It features a robust square base for maximum surface coverage and is constructed from durable cast iron.

## Product Overview

### Heavy-Duty Compaction Solution

This durable tamper head is engineered for efficient compaction of soil, gravel, and asphalt in professional construction and landscaping environments. Its robust square base design ensures maximum surface coverage, facilitating uniform ground preparation. Constructed from high-quality cast iron, it provides the necessary weight and resilience to withstand demanding job site conditions.

## Technical Specifications

### Available Dimensions

- 8" x 8"
- 10" x 10"

<b>Material</b>	Cast Iron
<b>Primary Applications</b>	Soil Compaction, Gravel Compaction, Asphalt Compaction, Landscaping
