

Solar Powered Dragonfly Garden Lights

This solar-powered light features flexible stems adorned with dragonfly-shaped lights. Designed for outdoor use, it automatically illuminates at dusk, incorporating a solar panel for daytime charging.

Product Overview

Decorative Solar Dragonfly Illumination

This solar-powered decorative light features elegant, flexible stems topped with dragonfly-shaped lights designed to add whimsical charm to outdoor spaces. The integrated monocrystalline solar panel charges the included batteries during the day, allowing for automatic illumination at dusk without the need for external power sources. Built for durability, the weather-resistant base ensures reliable performance in gardens, patios, and walkways.
