

Solar Powered Garden Stake Light

This solar-powered light features a ribbed light diffuser and a stake for ground insertion. It is designed to automatically charge during the day and illuminate at night.

Overview

Solar Powered Garden Stake Light

Enhance your outdoor spaces with this efficient solar-powered garden stake light, designed for hassle-free landscape illumination. Featuring high-efficiency mono solar cell technology, this light automatically charges during the day and activates at dusk, providing up to 10 hours of bright white LED illumination. Its durable, waterproof construction makes it an ideal solution for gardens, pathways, and decorative landscaping.

Technical Specifications

Solar Cell Type	Mono solar cell
Light Source	Super bright white LED
Battery Capacity	600 mAh
Battery Type	1pc AA rechargeable
