

Solar Powered Garden Stake Light

This solar-powered garden light features a speckled gray and white finish. It is mounted on a black plastic stake for easy insertion into the ground, providing ambient lighting.

Product Overview

Solar Powered Garden Stake Light

This solar-powered garden light is an ideal solution for enhancing outdoor pathways and garden aesthetics. Featuring a durable, weather-resistant design with a speckled gray and white finish, it integrates seamlessly into various landscape styles. The unit utilizes efficient solar energy to power internal LEDs, providing reliable ambient lighting without the need for external wiring.
