Product Overview

Smart Solar Security Lighting

This high-performance solar wall light features an all-in-one compact design, delivering 1000 lumens of brightness for reliable outdoor security. Equipped with advanced PIR motion sensor technology and an IP65 waterproof rating, it ensures consistent operation across various weather conditions. Its wire-free, adjustable solar installation makes it a versatile solution for gardens, pathways, and residential perimeters.

Technical Specifications

Product versatility: Adjustable angle up to 45 degrees and 63m² lighting coverage.

Brightness

1000 LM

Output

Efficiency

190 lm/W

LED Efficiency

Ingress Protection

IP65

Installation Parameters

- Solar powered (no wiring required)
- Adjustable installation angle: 0-45 degrees
- Detection angle: 130 degrees
- Maximum lighting area: 63 square meters

Ideal Applications

- Gardens
- Parks
- Backyards
- Garages
- Pathways
- Gates
- Villas

Automation

Automatic Day/Night Switching, PIR Motion Sensor, 6-8 Days Rainy Weather Support

Certifications

TUV, RoHS
