

Solar Powered Outdoor Pathway Light

This solar-powered pathway light is designed for gardens, pathways, and lawns. It automatically illuminates at dusk after charging via its solar panel during the day.

Product Overview

Solar Powered Pathway Lighting

This solar-powered outdoor light is designed to enhance safety and aesthetics in gardens, pathways, and lawns. Featuring a high-efficiency integrated solar panel, it automatically charges during daylight hours and illuminates at dusk. The unit is built for durability to withstand outdoor elements while offering a convenient, wire-free installation process.

Technical Specifications

Installation	No wiring required
Power Source	Integrated Solar Panel
Operation Mode	Yes

Design Features

Components

- Integrated Solar Panel
- Protective Top Cover
- Transparent Light Diffuser
- Cylindrical Base

Construction	Durable, Weather Resistant, Cylindrical Base
