

Solar Powered Outdoor Wall Light

This solar wall light is designed for outdoor use, providing illumination powered by solar energy. It features an integrated solar panel that charges during the day, automatically activating the LED light at dusk.

Product Overview

Solar Powered Outdoor Lighting Solution

This high-efficiency solar wall light is engineered for versatile outdoor illumination, utilizing integrated solar panels to harvest energy throughout the day. Designed with durability in mind, its weather-resistant housing ensures reliable performance across varying environmental conditions. The unit provides wide-area coverage through a specialized LED array, making it an excellent choice for garden paths, walkways, and exterior architectural lighting.

Technical Specifications
