

Solar Powered Shed Light with Remote Control

This solar-powered shed light provides energy-efficient lighting for sheds and garages. The light features a separate solar panel, remote control, and durable construction for outdoor use.

Product Overview

Solar Powered Shed Light

This solar-powered shed light provides convenient and energy-efficient lighting for sheds, garages, or other outdoor spaces. Featuring a separate solar panel that charges the internal battery during the day, it offers reliable illumination without the need for complex wiring or electricity. With automatic dusk-to-dawn operation and a remote control for easy management, this durable fixture is an ideal solution for off-grid lighting needs.

Technical Specifications

Solar Cell Type	Mono solar cell
Battery Capacity	1300 mAh
Battery Type	Ni-Mh
Battery Quantity	4

Performance

Operation Time

12 Hours

Max Illumination

LED Configuration

- Six super bright white LEDs
- Four super bright Amber LEDs

Light Color Options

White, Amber
