

Solar Powered Umbrella Light

This solar-powered umbrella light provides convenient and energy-efficient illumination for outdoor spaces. Featuring a circular design with multiple LED light pods, it easily attaches to umbrella poles.

Product Overview

Ambient Outdoor Illumination

This solar-powered umbrella light offers an elegant and energy-efficient solution for illuminating outdoor entertainment areas. Designed for seamless integration with existing patio umbrellas, it features a user-friendly attachment system and automatic dusk-to-dawn operation. The included remote solar panel ensures flexible positioning to maximize sunlight exposure throughout the day.
