

Solid Carbide Drill Bit

This solid carbide drill bit is CNC fully-ground. It is suitable for use on steel, cast steel and cast iron.

Product Overview

PF-15 12xD Performance Solid Carbide Drill

The PF-15 series is a high-performance solid carbide drill bit designed for demanding industrial applications. Manufactured using a CNC fully-ground process, this tool ensures precision and reliability in heavy-duty drilling tasks. It is optimized for machining steel, cast steel, and cast iron, offering versatility for various metalworking environments.

Technical Specifications

Suitable Materials

Steel • Cast Steel • Cast Iron

Drilling Depth

12xD

Material

Solid Carbide

Manufacturing Process

CNC Fully-Ground

Surface Treatments

White, Titanium Nitride-Plated, Titanium Aluminum Nitride-Plated

Diameter Range

3.0mm - 20.0mm

Dimensional Data

Standard Sizes

Part No.	Diameter (dc)	Shank (ds)	Total Length (lo)
PF-D150300	3	8	90
PF-D150500	5	6	116
PF-D151000	10	10	162
PF-D151500	15	15	260
PF-D152000	20	20	310
