

Speaker System with iPod Dock and Digital Clock

This speaker system is designed for versatile audio playback and device docking. It features an integrated dock for music playback and charging, along with a digital clock display.

Overview

Versatile Audio Docking System

This 2.1 channel speaker system offers a comprehensive audio solution, featuring an integrated dock for iPods that provides both playback and charging capabilities. Equipped with a built-in AM/FM PLL radio and dual alarm functionality, it serves as an ideal bedside or desk companion for home and office environments. The system delivers clear sound through dual 5W speakers complemented by an internal subwoofer.
