

Speaker Wire for Headphones

Speaker wire is available in transparent and PVC types. It is constructed with a copper conductor and PVC insulation.

Product Overview

High-Performance Speaker Wire

This high-quality speaker wire is designed for reliable audio and communication applications. Featuring robust copper conductors and durable PVC insulation, it ensures consistent signal transmission. Available in multiple configurations and colorful core options, this wire meets rigorous safety standards for professional audio installations.

Technical Specifications

Certifications

UL • CUL

Applications

- Audio systems
- Communication equipment

Available Specifications

Configuration	Nominal Area
2-Core	0.50mm ²
2-Core	0.75mm ²
2-Core	1.00mm ²
2-Core	1.50mm ²
2-Core	2.50mm ²

Voltage Rating	300/500V
Insulation Material	PVC
Conductor Material	Copper
Core Colors	Red, White, Black, Colorful
