

Speaker Wire

Speaker wire is available in transparent and PVC types. It comes in 2-core configurations and meets IEC 60227-3 standards.

Product Overview

High-Performance Speaker Wire

This versatile speaker wire is designed for reliable audio connectivity in various professional and consumer applications. Available in both PVC and transparent insulation types, these cables ensure durability and signal integrity. The wire features a 2-core configuration and adheres to the IEC 60227-3 international standard for quality and safety.

Technical Specifications

Standards

IEC 60227-3

Core Colors

- Red/Black
- Red/White
- Red/Red

Insulation Materials

PVC, PE, SR-PVC

Core Configuration

2-core

Applications

Primary Applications

Wiring, Audio Equipment, Speakers

Product Dimensions

Cable Specifications Table

Cross-Sectional Area (mm ²)	Structure	Insulation Thickness (mm)
2x0.50	2x(7x0.30)	0.75
2x0.75	2x(12x0.25)	0.75
2x1.00	2x(14x0.30)	0.8
2x1.50	2x(30x0.25)	0.8
2x2.50	2x(50x0.25)	0.9
2x4.00	2x(56x0.30)	1
2x6.00	2x(84x0.30)	1.1
2x10.00	2x(80x0.40)	1.2
