

Spherical Metal Rod Pendant Light

This decorative lighting fixture features a spherical structure composed of interconnected metal rods with small light sources. The metal frame has a gold finish and is suspended by a thin cable, creating a floating appearance suitable for modern interiors.

Product Overview

Sophisticated Modern Illumination

This spherical metal rod pendant light offers a unique fusion of architectural design and ambient lighting. Crafted from high-quality brass with an elegant gold finish, the fixture features interconnected rods that create a floating, firefly-like aesthetic. Its modular design allows for flexible assembly, making it a versatile choice for diverse modern interior spaces.

Technical Specifications

Safety & Performance

- Low voltage conductive system
- Antistatic technology
- Energy-saving design

Durability

High Conductivity • Long-lasting

Primary Materials

Brass, Egyptian Crystal

Design & Customization

Assembly Style

Freely adjustable/modular
