Product Overview

Energy-Efficient LED Corn Bulb

This high-performance LED corn bulb is designed as an energy-efficient replacement for traditional incandescent or CFL lighting. Featuring a cylindrical shape with multiple LED arrays, it provides a wide beam angle for uniform, bright illumination. Its robust construction includes an integrated aluminum heat sink for superior thermal management, ensuring long-lasting performance and reliability in various indoor lighting applications.

Technical Specifications

Performance Metrics

360 degrees

Beam Angle Coverage

Installation Type	Horizontal lighting
Environment	Indoor
Design Features	Cylindrical shape, Aluminum heat sink, Standard screw base, Wide beam angle
