

Spherical Speaker System with Subwoofer

This speaker system features satellite speakers and a subwoofer, delivering a balanced audio experience. The satellite speakers have a compact design, while the subwoofer provides deep bass response.

Overview

High-Fidelity Spherical Audio Solution

This spherical speaker system with an integrated subwoofer is engineered for a balanced and immersive audio experience. Featuring a high-gloss black finish with sophisticated metal trim, the design combines aesthetic appeal with functional acoustic performance. The compact satellite speakers allow for versatile placement options, while the powerful subwoofer delivers rich, deep bass perfect for home theater and music listening environments.
