Product Overview

Energy-Efficient Illumination

This spiral compact fluorescent lamp (CFL) is designed as a highly efficient alternative to traditional incandescent bulbs. Featuring a unique spiral-shaped tube, it provides soft, diffused light output ideal for general residential and commercial lighting. With a standard screw base, it allows for easy installation across a variety of fixtures while offering a long operating lifespan to reduce maintenance needs.

Technical Specifications

Key Features

- Energy-efficient design
- Spiral-shaped tube geometry
- Long operational lifespan
- Soft, diffused light output

Base Type	Standard Screw Base
Suitable Applications	Residential, Commercial, General Illumination
