

Spring-Loaded Tool Balancer

This spring-loaded tool balancer is designed to suspend tools and equipment. It provides a counterbalancing force, which reduces operator fatigue and improves efficiency.

Product Overview

Industrial Spring-Loaded Tool Balancer

This spring-loaded tool balancer is designed to suspend heavy tools and equipment, providing a constant counterbalancing force to reduce operator fatigue. By maintaining equipment at the desired height, it prevents drifting and improves overall workplace efficiency. The device is constructed from durable materials to withstand demanding industrial environments while promoting safety by keeping workspaces organized.

Usage Environment

Heavy Duty • Warehouse • Assembly Line

Technical Specifications

Supported Weight Capacities

- 0.6 - 1.5 kg
- 0.9 - 2.0 kg
- 1.5 - 3.5 kg
- 3.0 - 5.0 kg

Key Features

Adjustable Tension, Industrial Grade, Ergonomic Design, Safety Suspension
