

SPST Panel Mount Rocker Switch

This is a single pole single throw (SPST) rocker switch with a red actuator and black housing. It is designed for panel mounting and features solder lug terminals for secure electrical connections.

Overview

SPST Panel Mount Rocker Switch

This Single Pole Single Throw (SPST) rocker switch is designed for reliable panel mounting in various low-voltage electrical applications. Featuring a clear 'I' and 'O' marking system for intuitive on/off operation, it ensures ease of use for end-users. The robust construction includes a distinct red actuator set within a durable black housing, making it both functional and visually identifiable.

Technical Specifications

Switch Configuration	SPST (Single Pole Single Throw)
Mounting Style	Panel Mount
Terminal Type	Solder Lug

Design Features

Actuator Color	Red
Housing Color	Black
Markings	I (On), O (Off)
