

Square Cap Roofing Nail for Weatherproof Seal

This roofing nail features a square plastic cap for a secure, watertight seal. It is constructed from durable metal, ensuring long-lasting performance in various weather conditions.

Product Overview

High-Performance Weatherproof Fastening

The Square Cap Roofing Nail is engineered to provide a secure and watertight seal for critical roofing applications. Featuring a specialized square cap, this design effectively distributes pressure across roofing materials, which prevents common tear-through issues. Its durable metal construction ensures long-term performance and reliability, even when exposed to harsh environmental conditions.

Technical Specifications

Primary Applications	Roofing Felt, Insulation Boards, General Roofing Components
Weatherproofing	Yes
Cap Shape	Square

Performance Features

Pressure Distribution

- Prevents material tear-through
- Ensures watertight seal
- Increases fastening surface area
