

Square LED Work Light

This high-intensity LED work light is designed for versatile applications. It features a square array of multiple LEDs for broad and uniform illumination.

Product Overview

High-Intensity LED Work Light

The EA9800E-1SA is a robust, square LED work light engineered for demanding environments. Featuring 16 high-efficiency LEDs, it delivers a powerful 3,360 lumens of illumination with a crisp 6,000K color temperature. Designed for versatility and durability, this light is suitable for off-road vehicles, heavy construction equipment, and other industrial applications requiring reliable, wide-flood lighting.

Performance Metrics

Key Performance Indicators

25 W Power Output	3360 lm Luminous Flux	6000 K Color Temperature
-----------------------------	---------------------------------	------------------------------------

Technical Specifications

Operating Voltage	DC 10-30V
LED Configuration	16 LEDs (1.5W each)
Beam Pattern	Wide Flood
Model Identifier	EA9800E-1SA

Durability & Compliance

Waterproof Rating	IP69K
Warranty	1.5 Years
