

Square Mouth Shovel with D-Grip Handle

This square mouth shovel is designed for digging, edging, and moving materials. The durable steel blade and comfortable D-grip handle provide strength and control, while the wooden shaft ensures sturdy and reliable construction for long-lasting use.

Product Overview

Professional Grade Square Mouth Shovel

This versatile square mouth shovel is engineered for demanding tasks, including digging, edging, and efficient material handling. Constructed with a durable steel blade and a sturdy wooden shaft, it is designed to withstand rigorous use in gardening, landscaping, and construction environments. The integrated D-grip handle provides superior control and comfort during extended operation.

Design & Construction
