

Square Non-Stick Grill Pan

This square grill pan is designed for grilling food indoors. It features a non-stick surface and ridged design to create grill marks while allowing fat to drain.

Product Overview

Professional Indoor Grilling

This square non-stick grill pan is engineered to bring the outdoor grilling experience into your kitchen. The ridged cooking surface creates authentic grill marks while simultaneously allowing excess fat to drain away for healthier meal preparation. Designed with a user-friendly handle and a durable non-stick coating, it ensures easy food release and convenient cleanup for demanding culinary environments.
