

# Square Parking Curb with Central Cutout

This parking curb is designed to stop vehicles. It features a square shape with rounded edges and a central cutout.

## Product Overview

### Durable Square Parking Curb

This square-shaped parking curb is engineered for reliable vehicle guidance and safety in parking facilities. Featuring a distinct central cutout, the unit is constructed from durable materials designed to withstand repeated vehicle impact. Its rounded edges prioritize safety, making it an ideal solution for organized and secure parking management.
