

Square Terminal Connector 78x92mm

This square terminal connector measures 78x92mm and features four mounting holes. It is designed for secure connections and reliable performance in electronic applications such as monitors.

Product Overview

Professional Terminal Interface

This square terminal connector is precision-engineered for robust electronic applications. Featuring a 78x92mm form factor, it includes four integrated mounting holes for secure installation. It is specifically designed to provide a stable, high-performance interface for electronic devices such as monitors and similar hardware.

Physical Dimensions

Width	78 mm
Height	92 mm

Technical Features

Mounting Holes	4
Intended Applications	Monitors, Electronic Devices, Terminal Interfaces
