

Square Ventilation Exhaust Fan

This square exhaust fan is designed for removing stale air and moisture. It features a circular duct connection for ventilation.

Product Overview

High-Efficiency Ventilation Solution

This square ventilation exhaust fan is engineered to deliver reliable air exchange for both residential and commercial indoor environments. Featuring an aesthetically pleasing, multi-section grill design, it seamlessly integrates into ceiling or wall installations. The unit is built for versatility, supporting various voltage requirements to ensure compatibility across global markets while maintaining high energy efficiency.

Design & Build

Grill Design	Four-section geometric pattern with alternating horizontal and vertical slats
Housing Color	Black
Grill Color	White

Installation

Mounting Type	Ceiling Mount, Wall Mount
Ducting	Circular side-mounted duct connection

Performance

Voltage Support	Universal Voltage
Energy Efficiency	Yes
